

WW1 Campaign Medals

Compiled and annotated by Ewart Tearle 2010. Thanks to much help from Rosemary Tearle.

Data supplied by Ancestry.co.uk

There are two sites that help interpret the data below: The CWGC (<http://www.cwgc.org/> ) for casualties

and the National Roll of the Great War (<http://www.military-genealogy.com/> )

There is a bit of licence with the name spelling, but all casualties are verified with their Regimental number

I have retained the spelling as used by Ancestry, which is the spelling on the medals card

At the end of each explanation you will see the branch on the Tree from which each person descends
